

The Second Symposium on Vehicle Security & Privacy

## VehicleSec 2024 Sponsorship Brochure

Founded in 2023, the Symposium on Vehicle Security and Privacy (VehicleSec) aims to bring together an audience of university researchers, scientists, industry professionals, and government representatives to contribute new theories, technologies, and systems on **any security and privacy issues related to vehicles** (e.g., ground, aerial, underwater, space), their **sub-systems** (e.g., in-vehicle networks, autonomy, connectivity, human-machine interfaces), **supporting infrastructures** (e.g., transportation infrastructure, ground control station), and **related fundamental technologies** (e.g., sensing, control, AI/ML/DNN/LLM, real-time computing, edge computing, location service, simulation, digital twin, multi-agent protocol/system design, and human-machine interaction).

The Second Symposium on Vehicle Security and Privacy (VehicleSec 2024) will take place on February 26, 2024, in conjunction with the Network and Distributed System Security Symposium (NDSS) 2024 in San Diego, CA. Besides the main program, VehicleSec will host a demo/poster session, a lightning talk session, and a community reception. We are looking forward to receiving sponsorship from academia, industry, and government to help foster new ideas on vehicle security and privacy.

### Why Sponsor VehicleSec 2024?

Sponsorship of VehicleSec provides an excellent opportunity for your organization to reach the world's leading vehicle security and privacy researchers, professionals, and potential future collaborators and employees.

In addition to VehicleSec attendees, your sponsorship will be prominently visible to all participants visiting NDSS and VehicleSec symposium websites.

Sponsorship funds will be used to enhance the quality of the symposium and enable broad participation, especially by talented students. This includes but is not limited to a community reception event, travel grants to domestic and international students and named paper/poster/demo awards, etc. Your sponsorship will be made explicitly known to the corresponding attendees/awardees.

For Gold and Platinum sponsors, an on-site sponsor exhibition table will be provided to further enhance the publicity of your organization and allow direct interaction with attendees.
